*Thursday, 10<sup>th</sup> of February - morning*

## **ABOUT THE ATTAC NETWORK**

The « Association for the Taxation of Financial Transactions of the Aid of Citizens (Attac) » was founded in France in 1998, when the Asian Financial Crisis plunged millions of people into poverty.

Attac is an international network engaged in the global justice movement. Attac is active in 40 countries and about 1.000 local groups. Hundreds of member organisations, unions, environmental organizations, social movements, groups engaged for the solidarity between North and South... support the Attac network and are part of the national Attac chapters.

We've been actively involved in the social fora process, in Europe as well as globally, in the WSF process.

We fight the neoliberal globalization and work jointly to promote social, environmental and democratic alternatives in the globalization process.

Attac stands for a strong regulation of financial markets, closure of tax havens, introduction of global taxes to finance global public goods, cancellation of developing countries' debt, and for a just trade rules .

## **COME MEET US IN DAKAR!**

**Besides the workshops and assemblies, Attac will be present in the stalls area with material on our activities. Come discuss with us!**
