General remarks

This request covers horizontal commitments, MFN exemptions and the following service sectors:

The EC proposes that Singapore's current GATS commitments are revised in accordance with this request. The EC is both seeking improved commitments and clarification of existing commitments as set out in this Request. The EC is furthermore looking for a reduction in scheduled limitations whether these are horizontal or sector specific in nature.

The EC further requests that commitments are entered in accordance with the scheduling guidelines adopted by the Council of Trade in Services on 23

March 2001 (S/L/92). In particular, for each commitment or limitation entered the EC requests:

- that the sector and sub-sector are clearly identified in accordance with the classification list in Document MTN.GNS/W/120 or other internationally recognised classification (e.g. Financial Services Annex) and corresponding CPC number. If this is not possible, the schedule should contain a sufficiently detailed definition to avoid any ambiguity as to the scope of the commitment.
- that any remaining limitation on market access (hereafter “MA”) or on national treatment (hereafter “NT”) are clearly described and only be inscribed in the market access or national treatment columns if the measure is of a nature foreseen by Articles XVI-XVII GATS.

The EC remains available to provide any clarification and answer any question on this request. Questions can be addressed to the European Commission via the EC contact point, via the Delegation of the European Commission in Geneva, or at the following EC officials in Directorate-General Trade Unit D2 (Trade in services, including e-commerce) :

MFN Exemptions

Maritime Transport Services:

Singapore has an MFN exemptions that allows for measures concerning maritime related storage and warehousing, freight forwarding, inland trucking and container station and depot services. The undertaking of the commitments to bind the current level of market access and treatment to services and services supplier, in the subsectors will be through the conclusion of bilateral shipping agreements.

EC request: Remove exemption (see EC requests for maritime transport based on the model schedule, which would include these activities).

Air transport - Computer reservation systems

Singapore has a MFN exemptions where market access and national treatment are based on reciprocity in mutual concessions, but not necessarily in the same areas, as established under bilateral Air Services Agreements.

EC request: Remove or specific limitations to issues directly relating to CRS-systems (see EC request under air transport).

Annex 2 Facilitating air transport services

Ground-handling Services

Efficient ground-handling is essential to the proper functioning of air transport and competition between operators in this area ensures that proper use is made of air transport infrastructure. It helps reduce the operating costs of airlines and improves the quality of service for airport users.

For specialised groundhandling suppliers the following activities are requested:

- Ground Administration – supervision and administration at the airport (CPC 7461);
- Passenger Handling – assisting arriving, departing and transfer passengers (CPC 7461);
- Baggage Handling – handling baggage in the sorting area (CPC 7461);
- Freight and Mail Handling – physical handling of freight and mail, dealing with security and customs procedures (CPC 74110 (container handling services) and 74190 (other cargo handling services);
- Ramp Handling – marshalling and moving the aircraft, loading and unloading of aircraft, transport of passengers, freight, supplies (CPC 7469).

Airport management services

Airport management services constitute the core activities of airport services providers and cover: Airport operation services (excl. cargo handling), including passenger air terminal services and ground services on air fields, including runway operating services, on a fee or contract CPC 74610.

Activities are also related to “other management consulting services” (CPC 86509) and activities separately specified under “other management services not elsewhere classified”(CPC 86609). A commitment will allow services suppliers to take an equity stake in - and engage in the overall operation and management of - airports when these are open for investments from private operators. Thereby it will bind existing common practices in the sector.
