Coming to the Counter G7

Life at the Counter-Summit:

We will have several large areas distributed throughout the camp where you can set up your tents and camping equipment as well as a car park for your vehicles (we are in the process of determining its location). We will also try to provide, to the extent of our abilities, permanent sleeping spaces for those who need them most. Shower and dry toilets units will be located throughout the camp. In addition, we will provide (vegetarian) meals on a free donation basis for all. Local organisations and farmers will also offer a variety of meals. Several bars will be open in the evening, especially in the concert area. During the three days of the Counter-Summit's forums (21, 22, 23 August) the activities/concerts/debates/workshops will be divided between the "village of alternatives" in the centre of Hendaye and at the camp itself. Regular shuttles will be available to reach the centre of Hendaye, the village of alternatives and the camp.
