

THE DELPHI DECLARATION

On Greece and Europe

European governments, European institutions and the IMF, acting in close alliance with, if not under direct control of, big international banks and other financial institutions, are now exercising a maximum of pressure, including **open threats, blackmailing** and a **slander and terror communication campaign against** the recently elected **Greek government** and against the **Greek people**.

They are asking the elected government of Greece to continue the “bail-out” program and the supposed “reforms” imposed on this country in May 2010, in theory to “help” and “save” it.

As a result of this program, **Greece has experienced by far the biggest economic, social and political catastrophe in the history of Western Europe since 1945**. It has lost 27% of its GDP, more than the material losses of France or Germany during the First World War. The living standards have fallen sharply. The social welfare system is all but destroyed. Greeks have seen social rights won during one century of struggles taken back. Whole social strata are completely destroyed, more and more Greeks are falling from their balconies to end a life of misery and desperation, every talented person who can leaves from the country. Democracy, under the rule of a “Troika” acting as collective economic assassin, a kind of Kafka’s “Court”, has been transformed into a sheer formality in the very country where it was born! Greeks are experiencing now the same feeling of insecurity about all basic conditions of life, that the French experienced in 1940, Germans in 1945, Soviets in 1991. At the same time, the two problems which this program was supposed to address, Greek sovereign debt and the competitiveness of the Greek economy have sharply deteriorated.

Now, European institutions and governments are refusing even the most reasonable, elementary, minor concession to the Athens government, they refuse even the slightest face-saving formula there might be. **They want a total surrender of SYRIZA, they want its humiliation, its destruction. By denying to the Greek people any peaceful and democratic way out of its social and national tragedy, they are pushing Greece into chaos, if not civil war.** Indeed, even now, an undeclared social civil war of “low intensity” is being waged inside this country, especially against the unprotected, the ill, the young and the very old, the weaker and the unlucky. Is this the Europe we want our children to live in?

We want to **express our total, unconditional solidarity with the struggle of the Greek people for their dignity**, their national and social salvation, for their liberation from the unacceptable neocolonial rule the “Troika” is trying to impose on this European country. We denounce the **illegal and unacceptable agreements successive Greek governments have been obliged, under threat and blackmail, to sign**, in violation of all European treaties, of the Charter of UN and of the Greek constitution. We call on European governments and institutions to stop their irresponsible and/or criminal policy towards Greece immediately and adopt **a generous emergency program of support to redress the Greek economic situation and face the humanitarian disaster already unfolding in this country.**

We also appeal to all European peoples to realize that what is at stake in Greece it is not only Greek salaries and pensions, Greek schools and hospitals or even the fate even of this historic nation where the very notion of “Europe” was born. **What is at stake in Greece** are also Spanish, Italian, even the German salaries, pensions, welfare, the **very fate of the European welfare state, of European democracy, of Europe as such**. Stop believing your media, who tell you the facts, only to distort their meaning, check independently what your politicians and your media are saying. They try to create, and they have created an **illusion of stability**. You may live in Lisbon or in Paris, in

Frankfurt or in Stockholm, you may think that you are living in relative security. Do not keep such illusions. **You should look to Greece, to see there the future your elites are preparing for you, for all of us and for our children.** It is much easier and intelligent to stop them now, than it will be later. Not only Greeks, but all of us and our children will pay an enormous price, if we permit to our governments to complete the social slaughter of a whole European nation.

We appeal in particular to the **German** people. We do not belong to those who are always reminding the Germans of the past in order to keep them in an “inferior”, second-class position, or in order to use the “guilt factor” for their dubious ends. We appreciate the organizational and technological skills of the German people, their proven democratic and especially ecological and peace sensitivities. We want and we need the German people to be the main champions in the building of another Europe, of a prosperous, independent, democratic Europe, of a multipolar world.

Germans know better than anybody else in Europe, where **blind obedience to irresponsible leaders** can lead and has indeed led in the past. It is not up to us to teach them any such lesson. They know better than anybody else how easy is to begin a campaign with triumphalist rhetoric, only to end up with ruins everywhere around you. We do not invite them to follow our opinion. We demand simply from them to think thoroughly the opinion of such distinguished leaders of them like **Helmut Schmitt** for instance, we demand them to hear the voice of the greatest among modern German poet, of **Günter Grass**, the terrible prophecy he has emitted about Greece and Europe some years before his death.

We call upon you, the German people, to stop such a **Faustian** alliance between German political elites and international finance. We call upon the German people not to permit to their government to continue **doing to the Greeks exactly what the Allies did to Germans after their victory in the First World War.** Do not let your elites and leaders to transform the entire continent, ultimately including Germany, into a **dominion of Finance.**

More than ever we are in **urgent need of a radical restructuring of European debt, of serious measures to control the activities of the financial sector, of a “Marshal Plan” for the European periphery, of a courageous rethinking and re-launching of a European project which, in its present form, has proven unsustainable. We need to find now the courage to do this, if we want to leave a better Europe to our children, not a Europe in ruins, in continuous financial and even open military conflicts among its nations.**

Delphi, 21 June 2015

The above declaration was adopted by nearly all participants in the Delphi conference on the crisis, on alternatives to euroliberalism and EU/Russia relations, held at Delphi, Greece on 20-21st of June. It is also supported by some people who were not able to be present. The list of people who signed it follows. In it there are not only citizens of EU countries, but also of Switzerland, USA, Russia and India. Many distinguished American scholars seem to be more sensitive as regard the European crisis, than the ... political leaders of EU themselves! As for Russians, it is only normal and natural to bear a great interest for what is going on in EU, as EU citizens bear also an interest for what is going on in Russia. All participants in the Delphi conference share the strong conviction that Russia is an integral part of Europe, that there is a strong interconnection between what happens in EU and in Russia. They are categorically opposed to anti-Russia hysteria, which in fact is nothing less than the preparation of a new, even more dangerous cold, if not hot war.
